

# Endurascape™ White Verbena

## ***Verbena 'Endurascape White' PP30,641***

- **Use**: This hardy landscape verbena beats them all for summer production. It takes the heat and stays in flower longer! Its vibrant color and superior branching creates a full habit bursting with blooms—ready to brighten any garden.
- **Exposure/Soil**: Sun-part sun. Moist, well-drained soil, but not soggy. Water when top 3" of soil is dry. Do not water center of the plant, try to water under the leaves. Drought tolerant once established.
- **Growth**: Grows 8-12" tall and continues to trail 1-2' a year wide
- **Hardiness**: Zone 7-11; Perennial
- **Foliage**: Deciduous; Green leaves
- **Flower**: White blossoms from spring until November.

**Blooms nonstop until late November. The first verbena that's hardy in the hottest days of Summer, but can take the cold down to the low teens and still re-bloom in Spring.**
