

Bleeding Heart

Long lasting blooms on and off for 4 months and reseeds too! Great for woodland gardens.

Dicentra 'Luxuriant'

- **Use:** This hybrid between East and West Coast natives throws reddish pink flowers in abundance form in early spring on a neat 15 in plant and continue through summer. The foliage is bluish green and finely divided, which would make 'Luxuriant' a useful and attractive ground cover even if it never bloomed. Long bloom time.
- **Exposure/Soil:** Part sun to shade.
- **Growth:** Grows 15" tall and 15" wide.
- **Hardiness:** 5-9; Perennial
- **Foliage:** Deciduous. Lacy, blue leaves.
- **Flower:** Racemes of red, heart-shaped flowers; the flowers hang on arching stems.
