

Encore Premium Coral Bells

Vigorous and large flowered, these varieties make excellent border plants with their nearly evergreen foliage in neat clumps.

Heuchera x 'Encore'

- **Use:** This new Heuchera hybrid starts out with young, deep, rose-purple colored leaves with light silvery, darker veins, and vibrant reddish-purple undersides in spring. They mature to a light rose with a heavy silver overlay and smoky purple veins. Encore is a hybrid between a popular French selection, 'Gloire d' Orleans' and the rock solid 'Caramel.
- **Exposure/Soil:** Part sun-shade. Best when planted under other trees, but not too deep a shade or poor flowering and leaf color. Moist, well-drained soil, but not soggy. Use slow release fertilizer two times a year. Water regularly, when top 3 in. of soil is dry.
- **Growth:** Fast growth to 12-15 "tall, 20" in bloom overall, by 12" wide.
- **Hardiness:** 5-8; Perennial
- **Foliage:** Semi-evergreen. The foliage is deep rose-purple colored with a light silvery on top and reddish-purple underneath.
- **Flower:** Cream, bell-shaped flowers from spring until summer.
